

Yevhen Mionchynskyy

✉ emionch@gmail.com | 📍 Lviv, Ukraine | 🔗 <https://www.linkedin.com/in/yevhenmionchynskyy>

I'm an infrastructure and performance testing leader with 20+ years of experience across IT operations, infrastructure architecture, and software development processes. I've built and led teams of 30+ people, stood up performance testing practices from scratch, and driven large-scale infrastructure modernisation, budgeting, and process improvement across software development companies and e-commerce. I'm passionate about efficient, well-architected systems, developing the people around me, and bringing engineering discipline to IT operations.

Experience

SoftServe

PERFORMANCE TESTING CLUSTER LEAD

March 2016 – Present

- Managing the Performance Testing Service, with 14 direct reports.
- Prepared the service offering and created the service development roadmap.
- Developed a training program and formed the initial team.
- Started several performance testing initiatives on client projects, and implemented 80+ performance testing projects to date.
- Prepares client proposals, implements DevOps solutions, and drives solution deployment in client environments.

Lviv Polytechnic National University

LECTURER

September 2022 – June 2023

- Lectured at Lviv Polytechnic National University, Lviv, Ukraine.

ELEKS

DIRECTOR OF IT

January 2015 – October 2015

- Managed the Infrastructure, Operations, InfoSec, CIS and IT Processes subdivisions, with 27 direct reports.
- Began ITIL-based IT process implementation, and delivered a "personal effectiveness" training program across the IT division.
- Established a Business Continuity Plan infrastructure site in a Polish datacenter.
- Established Jira and Confluence as production corporate tools, and migrated service desks from an internal tool to Jira.
- Implemented corporate TestLink (QA automation), staffing and file services, and migrated video surveillance to a dedicated solution.
- Implemented central UPS and generator power for the Ternopil branch office, and professional audio equipment for the Training Center.

ELEKS

HEAD OF COMPUTER SERVICES DEPARTMENT

May 2014 – June 2015

- Managed the Infrastructure and Operations subdivisions, with 15 direct reports.
- Implemented an IT infrastructure monitoring system covering 2,000+ service checks and 600+ hosts.
- Implemented standard operating procedures for the Operations team, and unified network topology and equipment across branch offices.
- Implemented a clustered Exchange service, new UPS and power distribution for the server room, and automatic internet connectivity redundancy.
- Integrated the Kyiv branch office into the corporate infrastructure.

Self-Employed

INDEPENDENT CONSULTANT

January 2014 – May 2014

- Performed IT and security audits for several IT development companies in Lviv and Kyiv.

- Analysed the current state of IT and security, delivered reports on weaknesses found, and provided recommendations for improvement.

Kasta

IT DIRECTOR

September 2012 – January 2014

- Managed the IT Department (Development, Production Support, Infrastructure, 1C teams), with 32 direct reports.
- Built and managed the team; interviewed candidates, conducted performance appraisals, and opened a new office in Lviv.
- Built the Development team; implemented a task tracking system and documentation portal, shipped 2,000+ changes to the product, and introduced Scrum.
- Implemented infrastructure for a new office and warehouse, including 5 communication/server rooms, 500 SCS/Ethernet ports, and a corporate Wi-Fi network.
- Implemented a new production hardware platform across 2 datacenters (48 Cisco blade servers, application balancers, Cisco Nexus/ASR).
- Established relationships with 4 internet providers, 4 SIP providers, 2 collocation providers, and the HQ in Poland.

SoftServe

IT INFRASTRUCTURE & OPERATIONS MANAGER

October 2010 – August 2012

- Managed the Network, Telecommunications, Virtualization & Storage, and Applications subdivisions, with 25 direct reports.
- Established a new office in the Philippines.
- Implemented corporate MSSQL and clustered Exchange services.
- Implemented an infrastructure monitoring system with SLAs, covering 8,000+ service checks and 600+ hosts across 6 offices.
- Upgraded the network to MPLS over DMVPN, covering 3,000+ Ethernet ports and 4,000+ IP addresses, with a separate storage network.

SoftServe

IT INFRASTRUCTURE MANAGER

February 2008 – October 2010

- Managed the Network, Telecommunications and Virtualization subdivisions, with 15 direct reports.
- Built 2 server rooms (13 and 7 racks), and implemented enterprise storage systems (Dell MD3000i, EMC AX4-I, EMC VNXe3300).
- Built a DMVPN network across offices, and extended the virtualization platform to 15 servers and 200 VMs.

SoftServe

SENIOR SYSTEM ADMINISTRATOR

January 2005 – February 2008

- Developed and scaled IT services in line with rapid company growth, with 10 direct reports.
- Built a site-to-site VPN corporate network across 7 offices with QoS, and a self-developed storage service.
- Implemented VoIP to cut international telephony costs by 10-100x, a VMware virtualization farm, and migrated email to Exchange and networking to Cisco.

SoftServe

SYSTEM ADMINISTRATOR

January 2001 – January 2005

- Deployed and supported Linux-based services (Squid proxy, BIND DNS, Apache web, IMAP email).
- Supported and grew the corporate network, including migrating it entirely to Cisco equipment.

SoftServe

SOFTWARE DEVELOPER

October 1999 – January 2001

- Developed software using Visual FoxPro and ProMatrix.

Education

Skills

Performance Testing	Load Testing, Scalability Testing, Baseline Testing, JMeter, Gatling
Infrastructure & Networking	Cisco, Network Architecture, Network Security, Routing & Switching, Firewalls, VPN
Virtualization & Cloud	VMware, AWS, Servers & Storage, iSCSI, High Availability
Monitoring	Nagios, Zabbix
Services	DNS, Apache, Squid, IIS, Active Directory
Operating Systems	Microsoft Windows Server, Linux (RedHat, Ubuntu), UNIX
Methodologies	Agile / Scrum / Kanban, Waterfall, DevOps
Management	Team Management, Budgeting (CAPEX, OPEX), IT Service Delivery, ITIL Processes

Awards

SoftServe Award 2020 - Issued by SoftServe, December 2020

Best Employee of the Year - Issued by SoftServe, December 2006

Certificates

Certified VMware Sales Professional
VMware Certified Professional (2010)
Cisco Certified Network Professional (CCNP), Networking (2006)
Cisco Certified Network Associate (CCNA), Networking (2005)
Microsoft Certified Professional (2001)

Languages

Ukrainian	Native or Bilingual
English	Professional Working
